

New and Improved!

BOSS II™

A Non-Intrusive Method of Detecting Objects Concealed in Body Cavities.

BOSS II makes prisons safer for inmates and staff.

Since 1996, Ranger Security's B.O.S.S. (Body Orifice Security Scanner) chairs have been used in some of the toughest jails and prisons in America to detect unwanted metallic contraband objects hidden within the body cavities of detainees and inmates.

After close collaboration with correctional facilities across the United States, Ranger has implemented new features into the BOSS II to further meet and exceed the rigorous demands correctional facilities require.

⊕ **Proven Effective in America's Toughest Prisons**

⊕ **Multi-Zone Security Metal Detector**

⊕ **Eliminate Stabbings and Slashings**

⊕ **Fast, Harmless, Safe, and Sanitary**

⊕ **Avoid Lawsuit Liabilities**

Oral Sensor

Foot Sensor

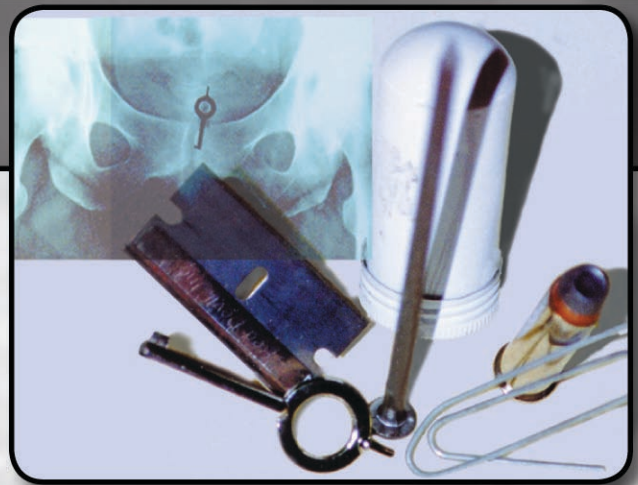

Wheel Kit Included

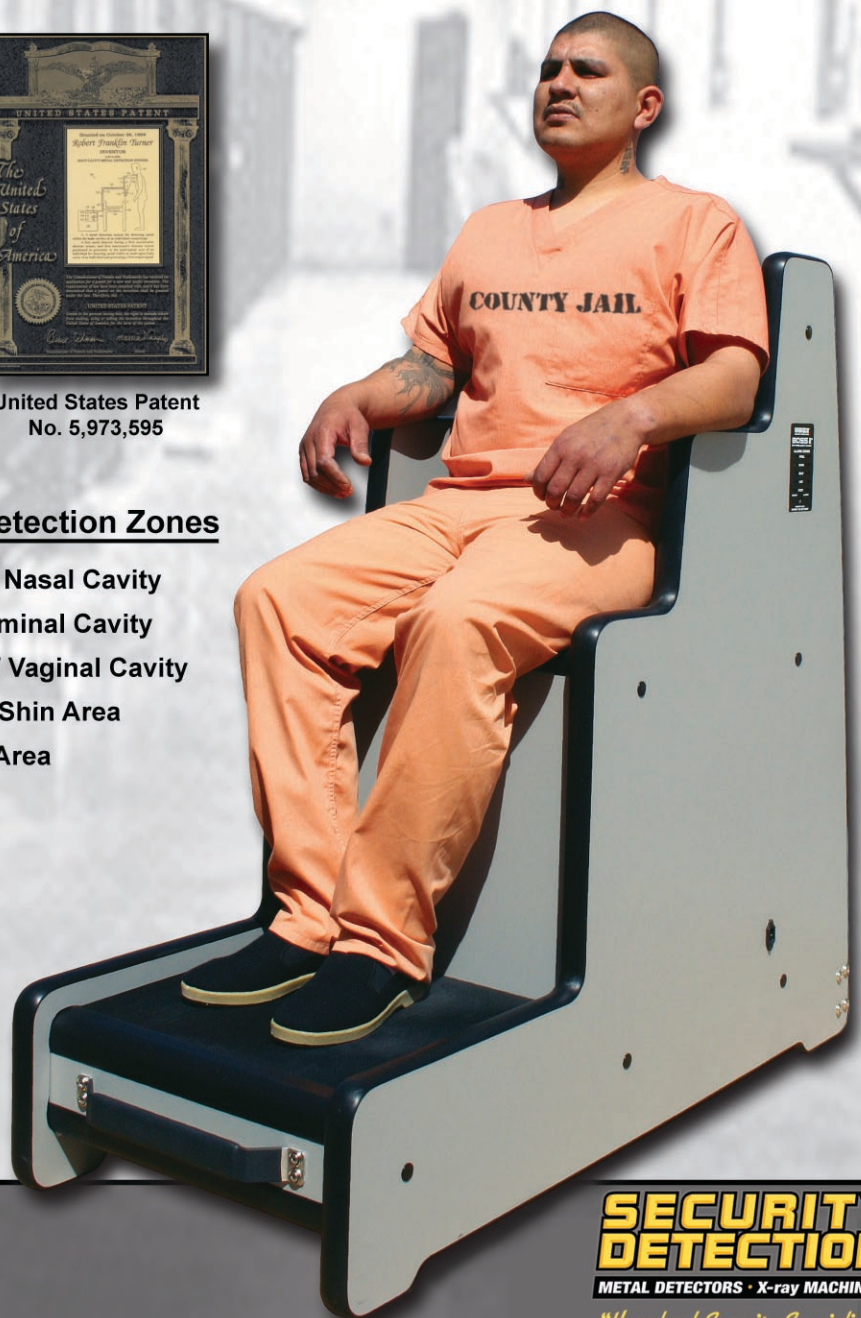

**United States Patent
No. 5,973,595**

Five Detection Zones

1. Oral / Nasal Cavity
2. Abdominal Cavity
3. Anal / Vaginal Cavity
4. Leg / Shin Area
5. Foot Area

Prevent dangerous unwanted metallic objects like these from entering your correctional detention facility.

B.O.S.S. II™

BODY . ORIFICE . SECURITY . SCANNER

Applications of the B.O.S.S. II

- Prisons, Jails, and Detention Centers
- Customs and Border Patrol Facilities
- Precious Metal Mines and Refineries
- Coin Counting Facilities
- Protect against violent crime and lawsuit liabilities
- Non-intrusive
- Sanitary Body Cavity Searches
- Loss Prevention Applications**
- Jewelry and Watch Manufacturing
- Computer Component Manufacturing

General Features of the B.O.S.S. II

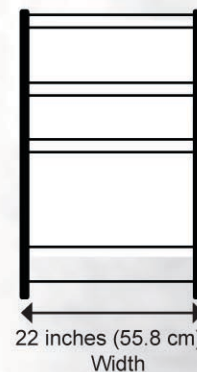

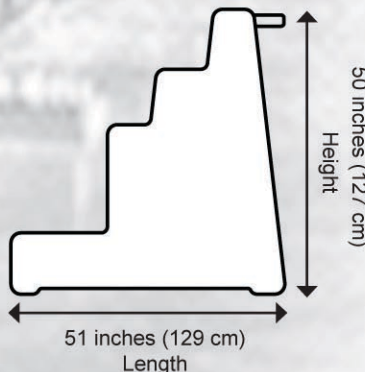

- Visual and Audio Alarms
 - Easy to Operate and Maintain
 - Wheel Kit for easy mobility
 - Hi / Low Master Sensitivity Switch
 - Harmless to Pregnant Women
 - (Optional) Back Up Battery Kit
- Five Zones Full Body Scan System**
1. Oral / Nasal Cavity Scanner
 2. Abdomen Cavity Scanner
 3. Anal / Vaginal Cavity Scanner
 4. Lower Leg Area Scanner
 5. Foot Area Scanner

Security Features of the B.O.S.S. II

- Instantaneous detection of all conductive metals.
- More consistent detection than security walk-thru or handheld metal detectors.
- Safe non-intrusive, non-contact search method.

Dimensions, Weight, and Power Requirements

Height: 50 inches (127 cm)
Length: 51 inches (129 cm)
Width: 22 inches (55.8 cm)
Weight: 210 lbs (95.45 kg)
Power Requirements: 110 / 220 VAC

Warranty Information
